

Revive everyday plastic to a "Perfect" polished finish...

**No Touch® Perfect Plastic™
Not your ordinary cleaner.**

This premium plastic cleaner and polish produces a smooth lustrous finish on clear and pigmented plastic surfaces. It is formulated and designed to safely remove stubborn yellow stains, annoying fine scratches, insect splatter, haze and oxidation build up. Unlike ordinary plastic cleaners, Perfect Plastic™ can restore visibility, provide a smooth polished finish and revive plastic to near perfect condition — all while forming a water repellent, anti-static shield that resists fogging.

Whether it's Plexiglas® acrylic glass, Lexan®, polycarbonate plastic, even fiberglass or polished metal surfaces, No Touch® Perfect Plastic™ will safely clean and polish without scratching. Easy to use, just shake-n-spray, work in and buff out for that perfect polished shine. Perfect for everyday smooth plastics in areas of automotive, motorcycle, powersport, marine, or home.

NO TOUCH®
Spray on the Love!

NO TOUCH® Perfect Plastic™...not your ordinary cleaner.
